

WISEDASH BROWN BAG

September 12, 2012

WHY WISEDASH?

- Provide an integrated educational analysis and reporting system to support
 - School and district staff making decisions to improve student achievement
 - Parents and community members learning more about their schools
 - Accurate and timely data reporting to meet Federal, State, and local requirements
 - Diagnostic and policy-relevant research
- Statewide, integrated, consistent
- Ultimately, we aim to increase data-informed decision-making at the state, district, school, classroom, and student level

DATA AND REPORTING

DATA SYSTEM BACKGROUND

PRE-GRANT

- Implementation of an individual student enrollment system data collection in 2004-05. Included third Friday enrollment, year end indicators, discipline, and IDEA child count.
- Creation of a Unique Student ID (WSN) for all WI public students through Wisconsin Student Locator System (WSLS)
- Student data available starting with the 2005-06 school year.

SLDS GRANTS

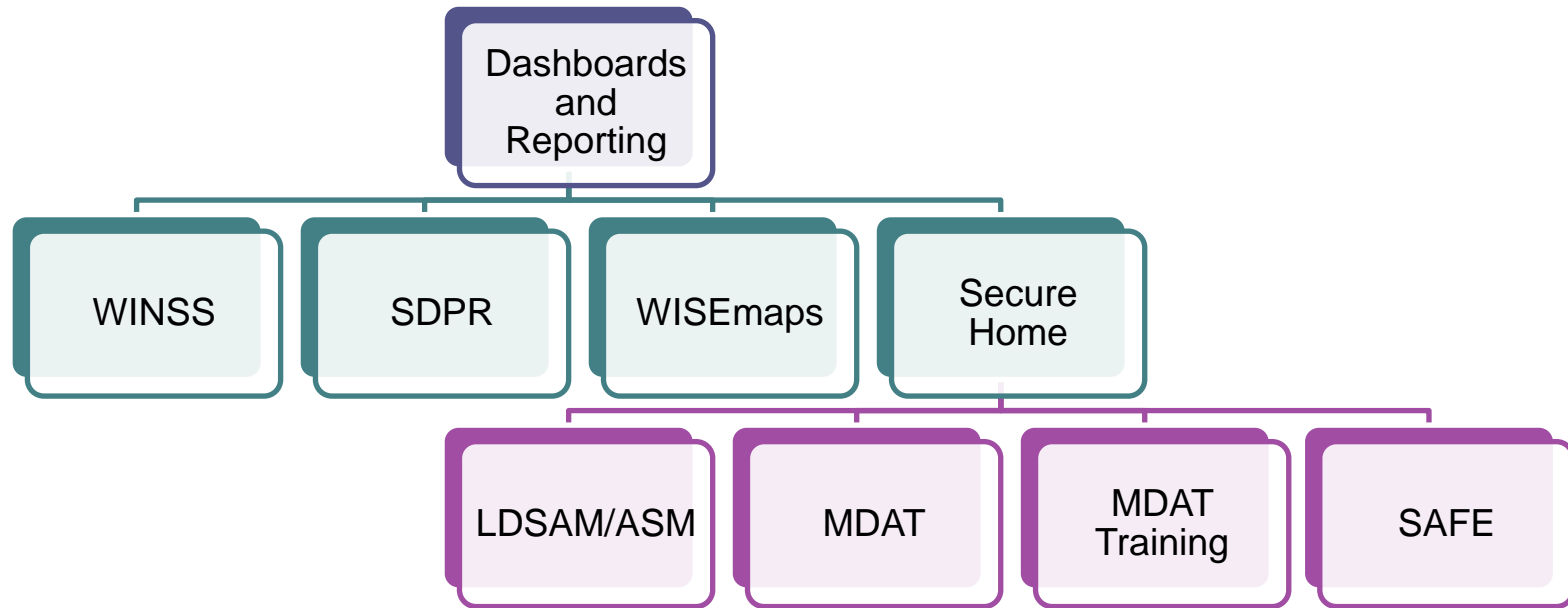

1ST GENERATION DATA PROJECTS

- Multiple Data Sources
 - Collection Systems, Spreadsheets, External Files
- LDS Data Warehouse or ODS
 - First student-centric data warehouse at DPI
 - Stored and linked student and school data from a variety of sources including collection systems, spreadsheets, and external files for reporting and analysis
 - ISES YE, ISES CD, ISES Discipline, WSAS, ACT, AP, SGP, ACCESS ELL, Graduation, School Data, WSLS, State Outcomes Data, P20 NSC Enrollment Data, Student Growth Percentile (SGP) Data, Graduation Cohort and Rate Data
- Coursework Completion System (CWCS)
 - Course data including a student-teacher-course link

SLDS GRANTS

1ST GENERATION DASHBOARD AND REPORTING PROJECTS

SLDS GRANTS

NEXT GENERATION DATA, DASHBOARDS, REPORTING

- DPI purchased a suite of data, dashboard and reporting tools
 - Data Model & Dashboard from VersiFit Technologies
 - Based in Appleton
 - Serves MMUSD, MPS, Chicago Public Schools, Oregon State, Hawaii, etc.
 - Focus on business intelligence solutions specific to education
 - Contract signed 02/16/11
 - ETL and Reporting tools from Microsoft
 - Reporting tool will also be utilized throughout the agency for operational reporting.
 - The LDS ODS is now currently being used as a data store as we transition to our new data warehouse system.
 - Wisconsin Information System for Education Dashboard solution or WISEdash, powered by Edvantage

WISEDASH, POWERED BY EDVANTAGE

- Education **data model** structured to enable smart, reporting on education data
 - Store and link student and school data from a variety of sources including collection systems, spreadsheets, and external files for reporting and analysis
 - Enrollment data, test scores, student growth, graduation, postsecondary enrollment
- Role based **data access & dashboards**
- **Public & secured reporting** through the same technology to a wide variety of users with a wide variety of data needs
- **Simple ad hoc reporting** functionality (choose a district, choose a demographic)
- **Advanced reporting** capabilities for a limited number of power users at the district and state level to create customizable reports
- Documentation, including professional development resources such as pre-made **workbooks to guide understanding** and use of dashboards and reports
- Opportunity for collaboration, already used by MMSD and MPS in Wisconsin

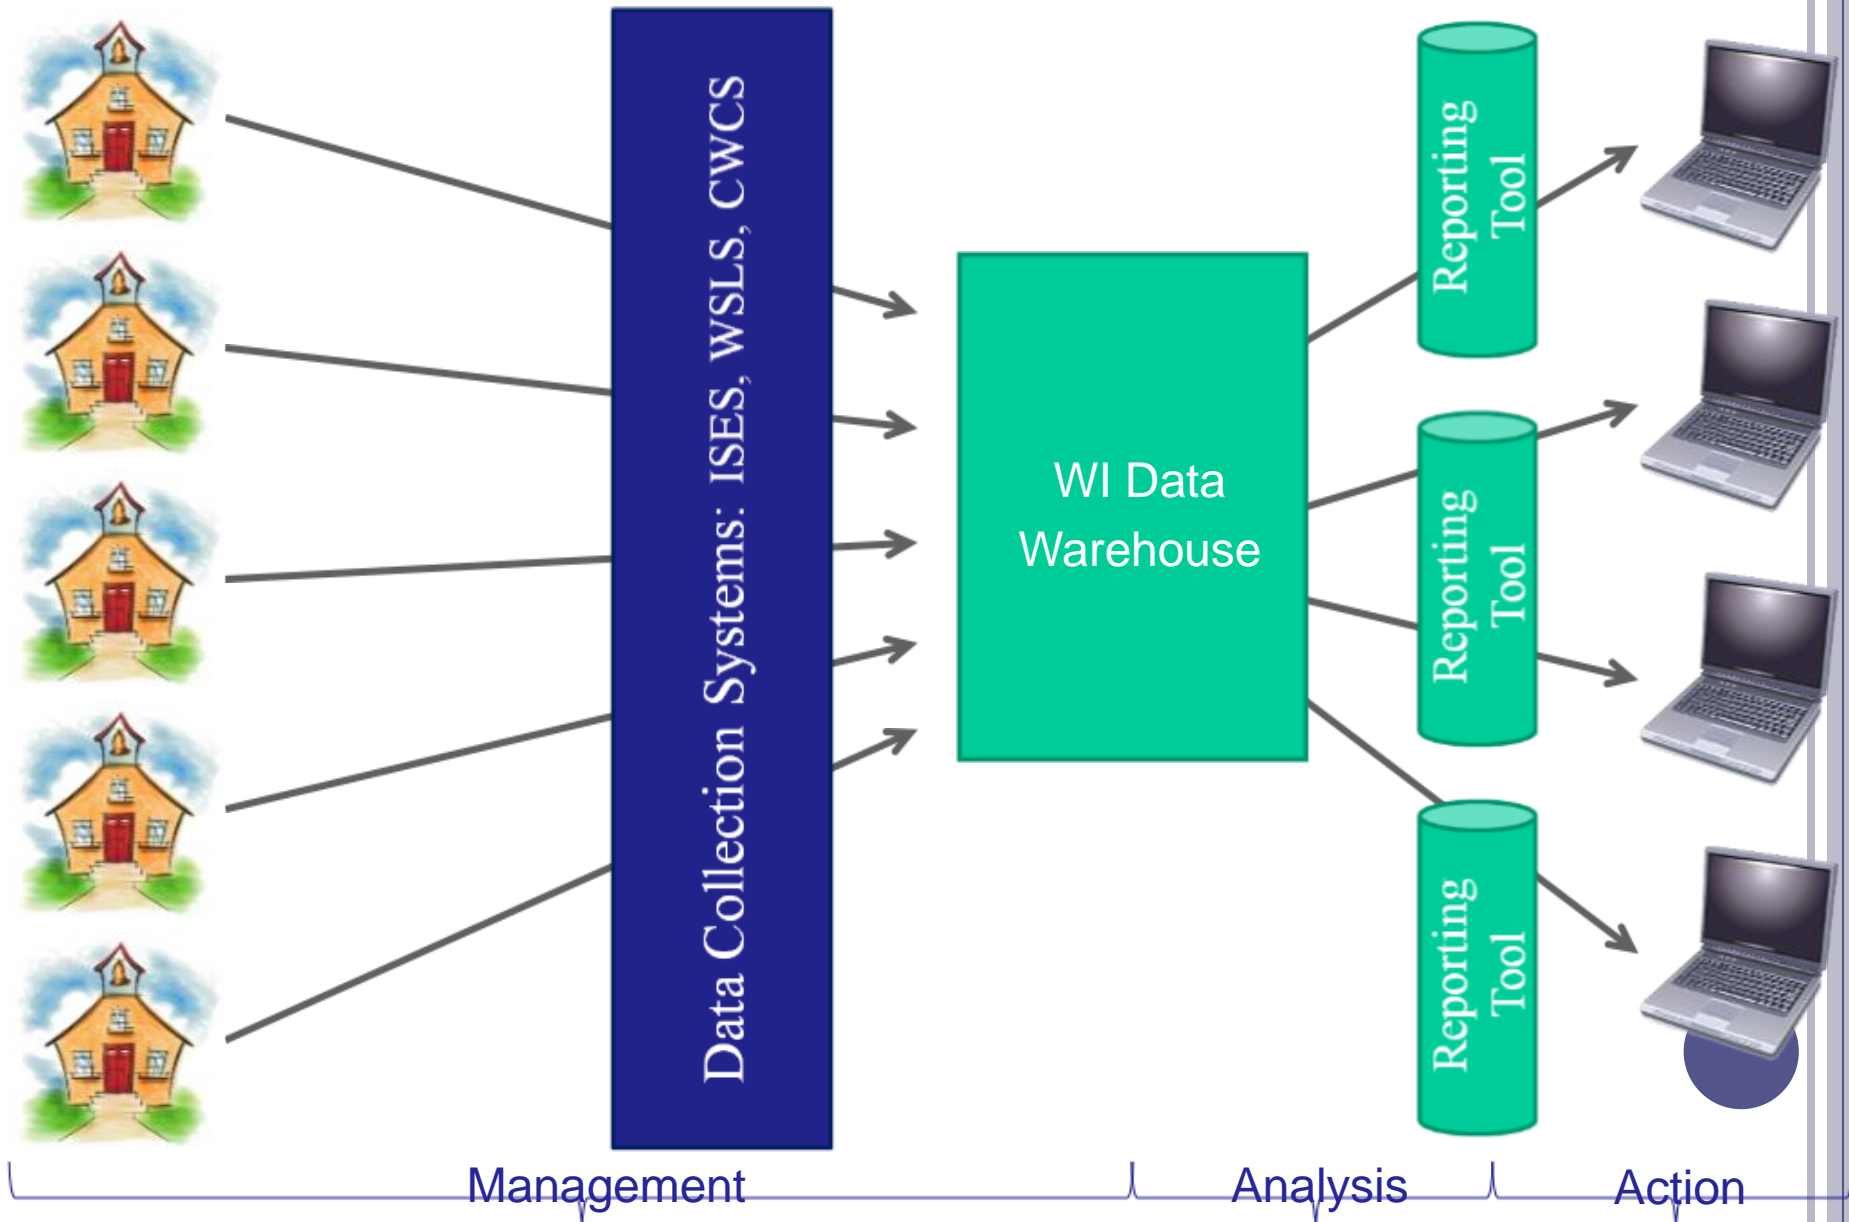

DATA ACCESS & REPORTING AT DPI

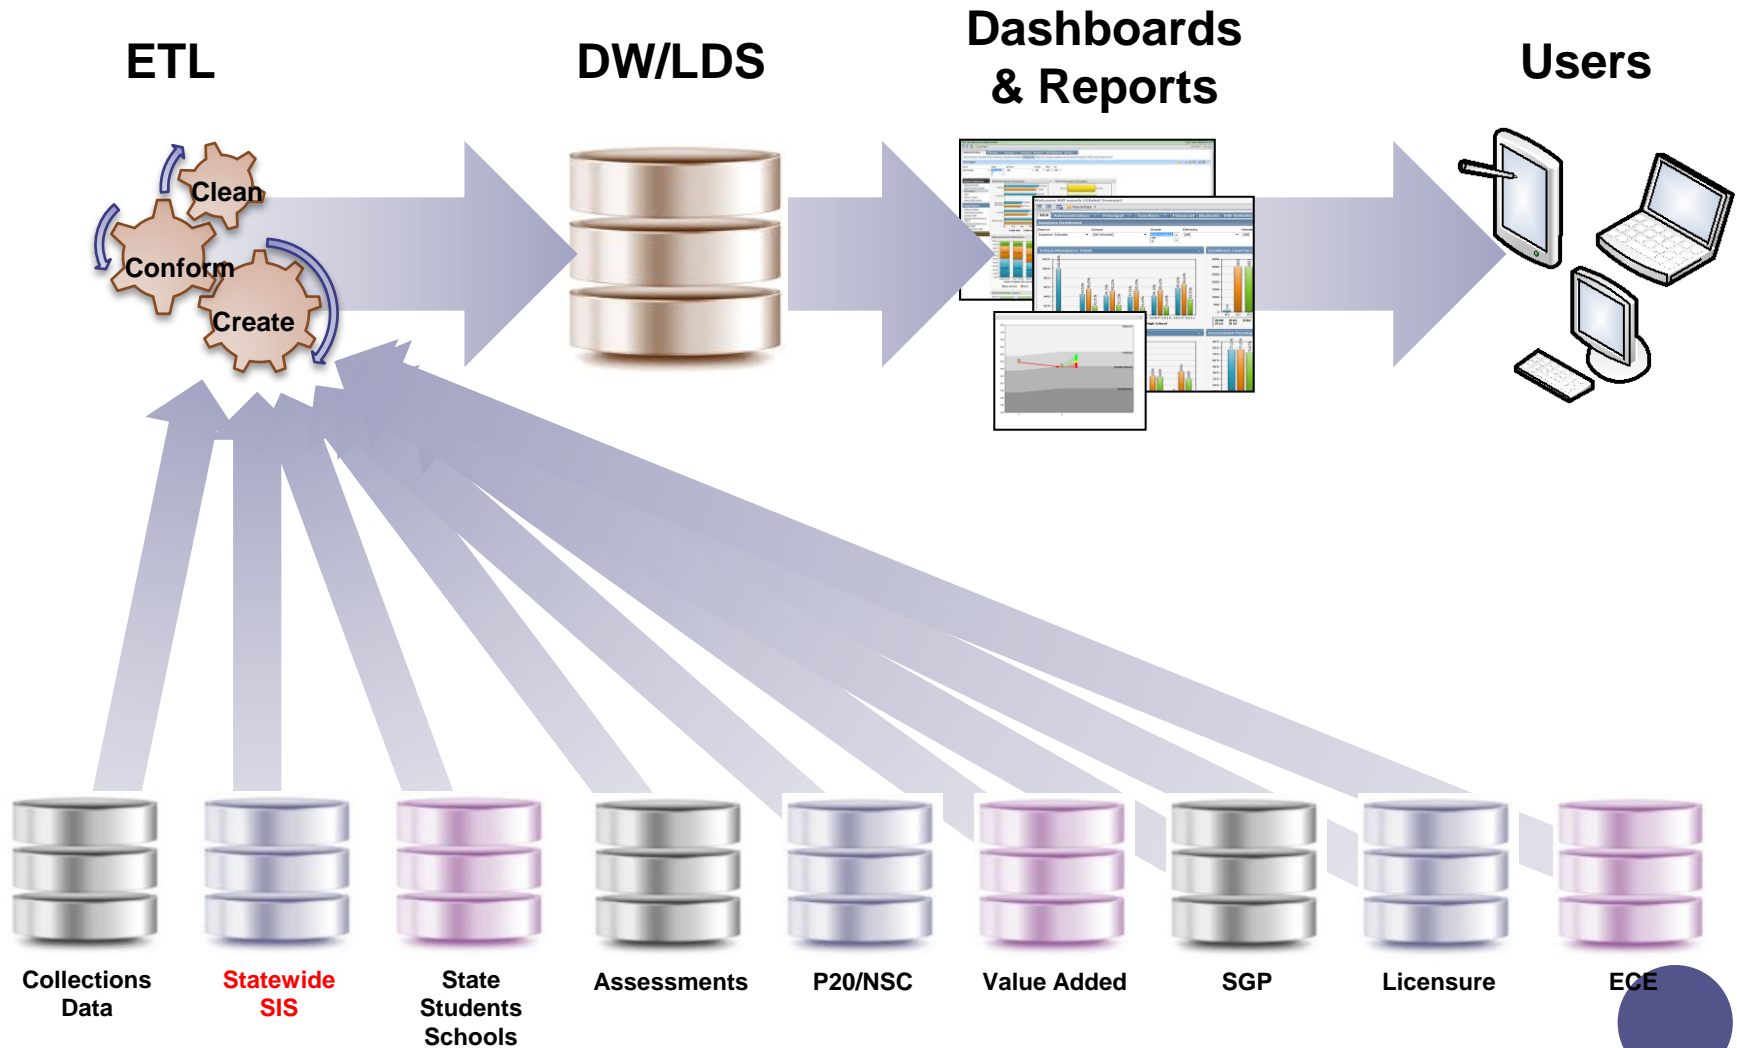

- The many components of implementation
 - Architecture – servers, software, etc.
 - Data warehouse – moving data into the new data model
 - Security, access, and administration – role-based access, authentication
 - Communication, Training, and Documentation – empowering users
 - Analysis and Reporting – building useful, easy-to-use dashboards and reports

PARTNERSHIPS

USING THE EDVANTAGE SOLUTION FOR VALUE-ADDED ANALYTICS

- Historically VA data was collected at individual districts and integrated into local DW's . Each deployment was unique.
- A common data model, data set, and data visualization that could be used for all districts and the state was designed and developed in collaboration by VersiFit, VARC, DPI, MMSD, and MPS.
- A key benefit to moving from the district model to a statewide approach is that we are now able to serve the small districts that don't possess sufficient enrollments to support district level growth/value-added analysis on their own.

CURRENT STATUS & NEXT STEPS

CURRENT STATUS

- Piloted WISEdash to a # of districts in June/July. Received very positive feedback.
- Statewide rollout in progress starting this week.
- Uses Secure Home like the other secure tools.
- Uses ASM like the other secure tools.
- Data/Dashboards Available Initially
 - Enrollment and Attendance
 - Assessments (including WSAS, ACT and AP) + WSAS GA
 - Student Growth Percentiles + GA
 - Student Profile (only available with a specific security role)
 - Student Search (only available with a specific security role)
- Intended Users: School and district staff interested in accessing a variety of dashboards and reports populated with their district/school data
- Secure release only; log in required and available only to school and district staff.

NEXT STEPS

- 60+ Project Requests to be prioritized including:
- Create a WISEdash public reporting site and add additional datasets into the data warehouse and additional dashboards for analysis.
- Integration of the following datasets into the Edvantage DW for analysis:
 - Value-Added
 - Statewide SIS starting 2013
 - Additional assessment data into the data warehouse including ACCESS for ELL, NWEA MAP, and the new SMARTER assessment
 - Graduation cohort and Rate data
 - Postsecondary data (NSC + coursework)
 - Program Participation
 - Special Education
 - Staff Data
 - Early Childhood Data + Literacy
- Additional Documentation and Guided Analysis Workbooks
- Implement Dashboard Cohorting Feature
- Reporting
- Working with the CESAs to develop curriculum.
